Major: Computer Science and Technology

Education

2020.07-Present Ph.D. candidate in the Department of Computer Science, the University of Hong Kong.

2015.09-2019.06 Xiamen University of Technology, major in Computer Science and Technology.
Major GPA: 90.41/100, ranking in 1st out of all students (87 students) in the major each year.

Research

- **2019 Tsinghua University Internship Research Program**

Machine Learning: Regressive Prediction

Instead of setting the hyperparameters by humans, using a certain sort of learning mechanism to adjust these hyperparameters, which allows data scientists to focus more on problems than on models. (Supervisor: Prof. Dan Pei)

- **2018 Summer semester (original project)**

Online Information Convey System on Amyotrophic Lateral Sclerosis (ALS) **Team Leader**

Finished the outstanding program. The system works by detecting patients' blinking to convey information such as opening a door, a light or typing words in a screen. The program finally shown as an outstanding one and won prize.

- **2018.06** **Rapid Ticketing and Verification System for Subway Transportation** **Participant**

As one of the three members, I was mainly responsible for the mobile software development and encryption application. This project is applying to the Xiamen BRT (Bus Rapid Transit) system.

- **2018.05** **Project on Internet of Things: *Accompany is one of the most beautiful loves*** **Team Leader**

As the leader, I was mainly responsible for the project structure design and project coordination. The project was finally in great success and was nominated as the Excellent Project.

Achievements

Software Copyright:

A Software Copyright based on an encrypted QR code ticketing system

Patent:

The practical method to reduce the ECO layer when amendment;

Academic Paper:

1) **[First Author]** TredPred: Long-Term Time Series Forecasting Based on Gaussian Process Regression.

2) No.16997458; STM32-based Vehicle Data Acquisition System for Internet-of-Vehicles-Draft, Published by 16th IEEE/ACIS International Conference on Computer and Information Science in March 2017;

Work Experiences

2019.12-2020.06 **The University of Hong Kong** **Research Assistant**

2019.05-2019.08 **Tsinghua NetMan Lab** **Internship**

An internship on AutoML method research: Autoregressive Prediction. Supervisor: Prof. Dan Pei (Tsinghua University)

2019.02-2019.05 **Institute of Automation, CAS** **Internship**

An internship on Natural Language Processing & Machine Translation in National Key Laboratory of Pattern Recognition.

2017.07-2017.09 **2017 BRICS Summit** **Volunteer Translator**

2016.07-2016.08 **Xiamen Bozhong Tuxin IT. Co. Ltd** **Part-time Front-end Engineer**

Responsible for the development of front-end interface; attended two-week JS development training.

Prizes & Honor

ACM:

National level: CCPC/ICPC University Programming Design Competition at Qinhuangdao (Excellent prize in Jun. 2017)

National level: CCPC/ICPC University Programming Design Competition at Hangzhou (Bronze prize in Nov. 2016)

Provincial level: CCPC/ICPC Fujian Province University Programming Design Competition (three Silver Prizes in 2016, 2017, 2018)

Provincial level: National software and IT competition for the professional--individual (the third prize in Apr. 2017)

Language:

National English Contest for College Students (The second prize in 2017 and 2018)

Software Development:

National level: 2017 National software and IT competition for the professional-entrepreneurial team competition (The second prize in the subway transportation project; excellent prize in Power app project)

National level: 2016 the first China's Innovation and entrepreneurship achievements fair (the best creative award)

National level: 2016 the third China's next-generation internet technological innovation competition (the third prize)

National level: 2017 the second China's intelligent interconnection innovation competition—Southern China division (winning prize)

Internet security:

Provincial level: Fujian Province Cyberspace security competition (the third prize in 2016 and 2017)

Scholarships & Honors:

National Scholarship 3/1860 (2018)

National Encouragement Scholarship, 67/1860 (Academic year of 2015-2016 and 2016-2017)

ABB Scholarship, 3/1860 (Academic year of 2016-2017)

Wang Shujing & Wang Wendou Scholarship, 11/3000 (2016 and 2017)

National Excellent Representative of National Scholarship Awarders (0.2%) (2019)

Excellent Undergraduate Student (2019)

Language & Skills

English Proficiency:

CET6-567

Main Qualification Certificates:

IBM Software Engineer; Software Testing Engineer; C Language-Intermediate.
